OPERATION IN SLA DASHBOARD ARROWSTACK DATA ANALYTICS INTERNSHIP

INTERN: T ARCHANA | AS-2026-47619

TOOLS: POWER BI | FILE: OPERATION.SLA

PROBLEM AND STAKEHOLDERS

- Problem:
- No visibility on SLA breach, customer rating & resolution efficiency
- Stakeholders:
- Primary: Operations Head & Support Manager
- Secondary: Product Team (Adobe, Asus, Amazon products)
- KPIs from Dashboard:
- - Total Ticket: 8K | Closed: 3K | Open: 3K
- - Avg Rating: 2.99/5 | Avg Resolution: 12.52 Hours
- - SLA Breach Count: 3K | SLA Breach Rate: 32.70%
- - Ticket Volume: 8.469K in Donut
- - Slicers: 5 Slicers - Product, Status, Priority, Channel, Type

DASHBOARD OVERVIEW

From Dashboard

7 KPI Cards:

- 1. Total Ticket: 8K
- 2. Closed Ticket: 3K
- 3. Open Ticket: 3K
- 4. Average Rating: 2.99 ★
- 5. Average Resolution Time: 12.52 Hours
- 6. SLA Breach Count: 3K
- 7. SLA Breach Rate: 32.70%

6 Charts Built:

- - Ticket ID by Status (Donut - 8.469K) - Closed 38%, Open 36%, Pending Customer Response 27%
- - Average Customer Satisfaction by Ticket Priority - Low ~3.0, High ~3.0, Medium ~3.0, Critical ~3.0
- - Ticket ID by Product Purchase - Top: Canon EOS, GoPro Hero, Nest Thermostat (200+ each)
- - Average Resolution Time by Ticket Type - Billing, Cancellation, Product, Refund, Technical (all ~12 hrs)
- - Ticket ID by Channel - Refund request highest (~1700), Billing lowest (~1400)
- - SLA Breach Count by Ticket Priority - Critical, High, Low, Medium (All ~2700-2800)

KEY BUSINESS INSIGHTS & ACTIONS

Operations SLA Analytics Dashboard — Approximately 8K Tickets

1. High SLA Breach Rate — 32.70%
- Approximately 3K tickets breached the defined SLA
- Recommended action: Investigate breach patterns and improve ticket escalation and response processes.

2. Customer Satisfaction — 2.99/5
- Recommended action: Investigate low-rated tickets and compare satisfaction across ticket priorities

3. Average Resolution Time — 12.52 Hours
- Recommended action: Identify ticket types with longest resolution times and improve assignment, troubleshooting, escalation

4. Ticket Status and Workload
- Approx 3K closed and 3K open, remaining should be verified
- Recommended action: Monitor pending and open tickets, reduce unresolved backlog, prioritize overdue cases

5. SLA Breaches by Priority
- Dashboard compares SLA breach counts across ticket priorities
- Recommended action: Review breaches for critical and high priority and ensure urgent cases receive timely attention

6. Ticket Distribution by Channel and Product
- Compare ticket volumes across support channels and purchased products
- Recommended action: Allocate support resources based on channel demand and investigate products with unusually high ticket volumes

Overall Recommendation: Reduce SLA breaches, improve resolution efficiency, monitor unresolved tickets, and strengthen satisfaction through regular KPI reviews.

VALIDATION & QUALITY CHECK

Validation Done:

- Total Ticket 8K vs Donut 8.469K - Verified (difference due to filters)
- Closed 3K + Open 3K + Pending ~2K = 8K - Tallies with raw data
- SLA Breach Rate 32.70% formula: (Breach Count / Total) *100 = 3K/8K - Verified
- Avg Rating 2.99: AVERAGE(Customer Satisfaction) - Cross checked
- Avg Resolution 12.52 hrs: AVERAGE(Resolution Hours) - Cross checked
- Product Purchased slicer 8 products: Adobe Photoshop, Asus ROG, Amazon Echo,
- Autodesk AutoCAD, Amazon Kindle, Bose QuietComfort, Apple AirPods, Bose SoundLink
- Speaker - All working
- Ticket Status, Priority, Channel, Type slicers - All working (5 slicers total)

Edge Cases:

- Duplicate Ticket IDs removed
- Null Product Purchased filtered
- Negative resolution time excluded

LIMITATION AND NEXT STEPS

Limitations:
- Static data (Last saved Today 11:11 AM) - No real-time
- Breach reason not captured - Why 3K breached?
- No agent-wise analysis
- SLA definition same for all priorities - Critical should have stricter SLA

Next Steps:
- Add Agent-wise breach analysis
- Add Monthly trend of breach rate
- Target: Reduce 32.70% breach to <10%
- Target: Increase rating from 2.99 to 4.5+
- Integrate live helpdesk tool for real-time

THANK YOU
